

Gracie Jaime

ASB Executive Board Member

October 3, 2020

Position Assessment: This school year, my position is in charge of various tasks. During the district board meeting on October 12th, I presented on the elementary schools in person learning and what events were happening such as the “jog-a-thon.” During this meeting there was brief talk about returning to school but there was no set date at this time. At the district school board meeting on November 9th, the board members and I talked about students returning to school on November 30th. There were protocols discussed and also talk about revamping certain buildings in the high school. I also presented a report on all the schools in the districts and talked briefly about our fall fest. I’m also club committee chair and I hope to plan a future meeting with club advisors. Multicultural club will be having a blanket donation for the homeless, so that is in the works right now.

Professional Development: I have been able to use and develop professional skills through the school board meetings. By being a board member, you hold a professional position that votes on policies/changes that pertain to the school. Also by working with other board members, I have been able to utilize my skills in a professional environment. I am also the president of the Multicultural Club and I have planned a blanket donation for the homeless. I am waiting to get this approved by our administration and therefore plans will later revealed.

Concerns/Change: My concern I have for the leadership class is that we won't have any dances or assemblies year. These events are a big part of our role as a class. I feel that many students are not wanting to be at school because there is nothing to look forward to. My change for leadership is to make giving back a priority. Since we aren't as busy because of the cancellation of events, we should try to do more community outreach.

Positive Comment: I have a positive comment for Niki. She is a great mentor to the freshmen and to the rest of the class. Niki always tries to look on the brighter side regardless of our circumstances. I appreciate all her hard work and positive energy she brings to class.

My Impact: Since I am the ASB Board Member, many students reach out to me about their concerns. Since coming back to school, many students wanted to propose the same schedule from online learning to in person learning. Since I represent them, it is part of my job to make sure their voices are heard.
